

CAE Group, a French leader in value-added connectivity solutions, acquires OPENETICS, to expand its international presence.

Wissous (France), July 31, 2024 - CAE Group, a leading player in value-added connectivity solutions for the industrial, smart building, and entertainment markets, announces the acquisition of OPENETICS, a Spanish company operating in over 50 countries and specializing in the manufacture of structured cabling technologies and solutions.

By acquiring OPENETICS, CAE strengthens its international development strategy by establishing a presence in Spain, enriched by OPENETICS' innovative solutions in the information and communication technology sector.

Bruno Poisson, CEO of CAE Group, started: *" We are delighted to welcome the experienced team of OPENETICS within CAE. The company brings cutting edge solutions in the fields of structured cabling solutions which complements CAE's offering. **Synergies are significant between our companies and will foster growth in France and Spain, as well as with export customers worldwide.**"*

Jordi Ortiz Campos, CEO and co-founder of OPENETICS, added: *"We are very excited to join CAE Group. **Our constant efforts to create high-performance structured cabling solutions and our commitment to quality and innovation resonate perfectly with CAE's vision. CAE will allow us to expand our offering to our clients with new brands and product lines in Spain and worldwide.**"*

About CAE Group

CAE Group is a French group which designs and distributes connectivity solutions. The group addresses notably the smart building (tertiary & residential), industrial, marine & offshore, nuclear & infrastructure, military, healthcare and entertainment markets. The group's value-added lies notably in its flexibility to design customized solutions with a short go-to-market. Moreover, CAE Group enjoys a high product quality, excellence of service, a strong customer experience and best-in-class operations. In particular, the one-stop-shop characteristic relies on more than 12 000 references with high technical and quality standards.
